MI.GE-1005003 Water Supply System

The apparatus is specially design as per BS ISO-12956. It will supply water flow of 0.1 to 0.5 liter per minute. It provides the flow control valve which can control the water flow.

It is specially arrange to produce of 300 KPA pressure of water at 0.5 liter/minute. Working voltage is 110 to 220 is 50/60/ HZ

Technical Specifications:

Nozzle Pressure	Max 300 KPA
Water supply Flow	0.1 to 0.5 liter/ min
Power Source	110 to 220 Volts 50 or 60 HZ
Related Standards	BS ISO-12956
